ARGO CORAL MARITIME

Ships:

=====

For the service either own or chartered ships are used. All ships are modern box shaped multipurpose tween decker ranging in sizes from 7.000dwt to 22.000dwt, with lifting capacities between 120mt and 1.400mt (swl). Our ships offer unobstructed deck space, with deck length between 80 and 120m. Cranes always located portside with full reach into holds and deck areas.

Target Cargoes:

=====

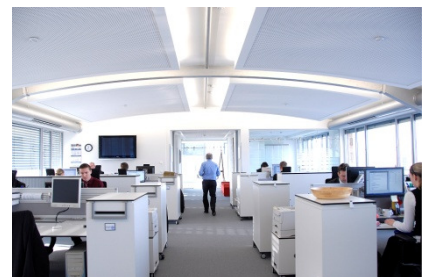

Power generation parts including diesel engines and generators, gas turbines, all kind of drums and tanks, windmill towers and blades, oilfield equipment, motor and sailing yachts, mobile -, railway- and gantry cranes, railways wagons, locomotives and trucks

Service

=====

We will provide a customized, safe and reliable sea transportation solution with a concentration in servicing heavy construction projects. With its own port captain and planning team ACM provides technical solutions for all kind of transportations. The preparation of stowage- and transportation plans will be developed in dialogue with our customers well in advance of cargo loading-/discharge operations.

With ACM's experience in door-to-door transports, warehousing and all logistic services belonging hereto, assistances in hinterland transports (by truck, rail, barge) can be provided upon Customers' demand

ARGO CORAL MARITIME

OUR HOME TERMINAL

C C T - Combined Cargo Terminals, Moerdijk/NL

Strategic location in the heart of the Netherlands

CCT is located in the port of **Moerdijk**, 3.5 hours sailing from the North Sea. The shortsea terminal is accessible for seagoing vessels with draughts of up to 9 metres in all circumstances.

Hub for Europe

The strategic situation halfway between Rotterdam and Antwerp also makes CCT an ideal hub for transport from and to the European hinterland. From both main ports, inland barges transport the cargo congestion-free to CCT as a trimodal inland terminal (and vice versa). From here, the European market can be reached in an optimum manner: by inland **barge**, by **train** and by **truck**, but also by sea via **short sea shipping**.
